## **PROVISIONING OF INTERCONNECTIONS TO EXTERNAL GATEWAY OPERATORS (EGOs)**

### **1. Background**

The Government of Sri Lanka with the National Telecommunication Policy has introduced a new dimension to the liberalized environment of the international telecommunications sector by granting licenses to operate External Gateways for international telecommunications. This was followed by gazetting of Interconnection Rules-2003. Further, the Minister of Mass Communications has issued a special directions to the Telecommunications Regulatory Commission (TRC) of Sri Lanka for the implementation of decisions regarding payments to Operators of Domestic Connectable systems for international voice call termination and origination.

In order to facilitate the smooth resolution of interconnection related issues between EGOs and SLT, SLT has developed this Manual which describes the procedure towards provisioning of interconnections to EGOs. The EGOs who intend to establish interconnections with SLT are kindly advised to follow this procedure and forward their applications. However, if any procedural terms are not provided in this manual, the EGO will refer to the Interconnection Rules and the same will apply.
